

## **INTERMEDIATE CLINIC: 3.0 – 3.5 Rated Players**

This clinic is designed for the player who has been playing pickleball awhile and is ready to take their game up a level. It's not as hard you most people think.

Rodney "Rocket" Grubbs is one of the most recognized players and instructors in Pickleball. Rocket is a 5.0 player, a certified IPTPA Pickleball Coach and travels the country helping pickleball grow through his company, Pickleball Rocks and the Pickleball Rocks Training Academy. [www.PickleballRocksAcademy.com](http://www.PickleballRocksAcademy.com)

In this clinic, Rocket will cover:

- The makeup of a paddle and how it affects your game.
- The proper grip for all pickleball shots.
- TWO common mistakes that hold players back and how to eliminate them.
- TWO easy changes that will improve your game almost instantly.
- Four Drills that you can and should do every day.  
You will learn each drill and hit a lot of balls.

You will leave with a 21 Day homework plan to jump to that next level...and stay there.
